PREFACE

Do the number Pi (π) contain everything within? Such as your date of birth, your date of death, even the date of the Doomsday. Well, what if someone knew that a long time ago and coded it somewhere?

Could someone else have discovered America in the Middle Ages before Columbus? Well, what if this mysterious person is really a great Oracle who has to hide his talent, and what if his purpose of going there is not to discover a new continent, but to solve one of the world's greatest secrets, the Secret of a Mayan prophetic calendar that explains when the Doomsday in a Mayan pyramid is coming?

The Mayans actually calculated the date of the Doomsday as 13.0.0.0.0 Baktun and they encoded it into a giant calendar. Well, what did that actually mean? 13 Baktun was actually a giant code in which the Mayans, who were also adept at mathematics, placed the true date of the Doomsday into the number Pi (π), and it indicated a date that was not 2012 but

further. Did the Mayans come up with this information themselves, or did they get it from a lost civilization far more advanced than themselves, called *Atlantis*?

Oracle Bruno realized at the end of his 22 years of work that all this could not be a coincidence, and it was all about to fall into place. "*It's all over, we can't go back now, it's too late!*" he said to himself and removed the sarcophagus lid of the temple and placed the last of the three large stone disks in place. Now everything was ready, he was about to find out which date actually 13th Baktun coincide with that is the biggest secret of human history hidden in the Mayan Calendar, which is impossible to solve, by calculating the hidden code in the number of Pi:

13th Baktun: 13,3333 × 366,6666 (day) = 4903rd code

The 4903rd number of the Pi number

coincide with the year 2222.

In 1500, on a dark night in a farmhouse near Granada in Southern Spain, a gray-colored 1-meter extraterrestrial creature who called himself '*Alien*' in his notes; stood in front of the door with two letters containing a series of prophecies about the future of the world and a mysterious map with a place marked on it, and with a huge picture that consisted of 100 scrambled numbers of some cryptic complex numbers and writing of future dates; and he was staring at Bruno with his big black eyes.

In fact, this number picture, which is a giant '*Anagram*', was a small piece of a giant spiral that began with 3.14... and extending to infinity, in which the histories of all the past and future events in the world were encoded. Alien suddenly threw the things in his hand towards him and began to run rapidly through the cornfield towards the lights descending from the sky 1 km away. As he began to run, the flying object began to quickly descend from the sky and disappeared into the darkness. Bruno first glanced toward the direction of the alien and went with fearful eyes, he had neither seen nor heard anything like this in his entire life, except in the stories of Satan and Jinn, told by people in the Church. He was frozen with fear, he wanted to follow him in that direction, but he didn't dare. He then reached out to the papers on the ground and slowly picked them up from where the alien had left them.

These two prophetic letters that Oracle Bruno received that night, and a map that shows the location of a mysterious 'Mayan calendar' in a temple in the middle of a great continent marked with "*America*" in Latin-like language, across Spain, and with "*Atlantis*" written in the middle, would in fact be the beginning of a struggle between God and Satan, which began with the expulsion of mankind from Heaven, and continuing until the Doomsday. So that, Bruno would realize before it was too late that this bloody struggle, which would cost him and all his loved ones lives, was in fact the beginning of a great prophecy that concerned not only him but the end of all mankind.

The chain of events that began in medieval Spain with a dramatic and bitter life and death struggle in the Inquisition led Bruno and his sister Sofia on a dangerous and long journey

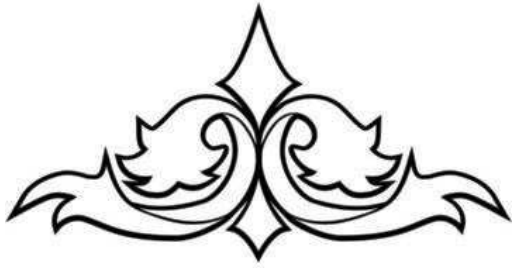

from Andalusia to a Mayan temple in Mexico, the center of the Mayan civilization, and it would eventually end with their execution. But the Great Prophecy that was announced would bring an end not only for the church or for them, but also the whole world this time. Because The Last Prophecy was leading humanity to the end of its story, the Doomsday, which started with the expulsion from Heaven.

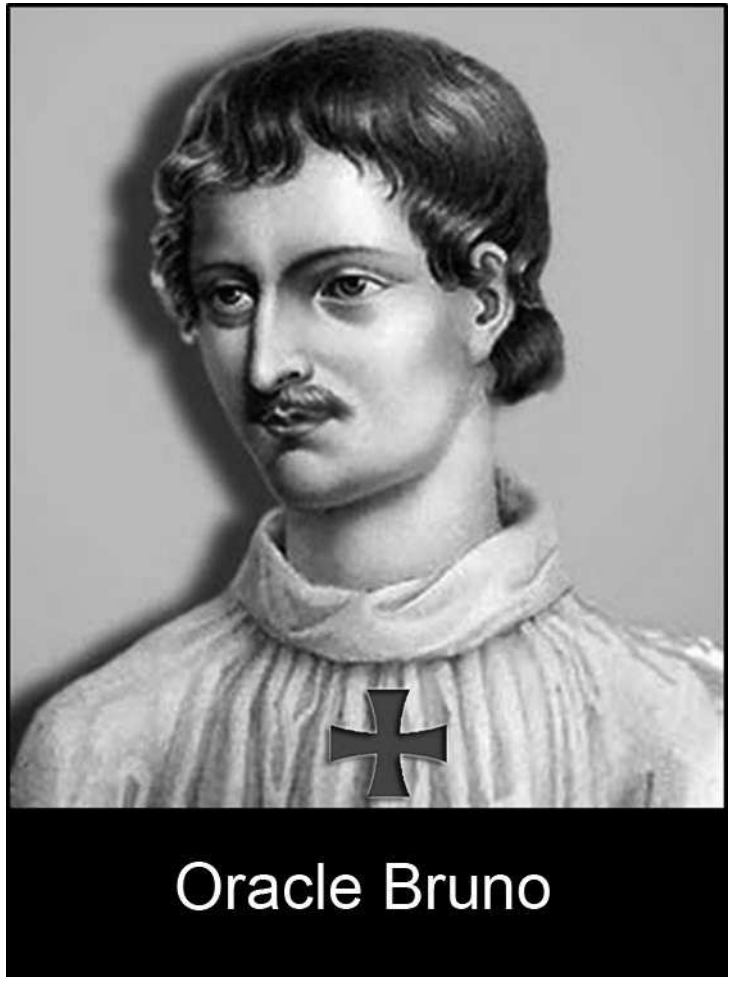

Where did humanity come from, where are we going?

You will find the answer to this question in The Last Prophecy.

IMPORTANT CHARACTERS MENTIONED IN THE BOOK

ORACLE BRUNO: Spanish Oracle, Explorer, Doctor, Astrologer, Ancient History researcher, and the main character of the book that has many talents. Bruno lived in the same period as Columbus in the Middle Ages and at the age of 20, in 1500, Bruno reached some important information with the help of an extraterrestrial being to discover a new

continent, America, and at the age of 30 he achieved this goal before Columbus. Not only that, Bruno manages to solve a 12-thousand-year-old Doomsday calendar that the Mayans hid in a temple with some secret documents that he received and he predicts in this calendar how the End of the World will come. He can quickly analyze what the real power is to rule and organize all the secret orders, organizations and evil in the world. However, after realizing that he had learned these secrets and thought that he had gone too far, the Church first excommunicated him from Christianity and then at the end, they decided to executed him terribly at the age of 42 in the Inquisition in 1522, by being tortured and his body is burned and put in a chest with other items and the Prophecy book he wrote. Later, this chest was smuggled out of Spain and buried in an unknown location in France.

* * *

SOFIA: Bruno's sister. She shares the same fate as Bruno. The dangerous secrets his brother knows would be the end of her too. But, before she dies, she tries to make all of Bruno's work into a book on his will and publish it and announce it to the world, replicating the book and making 3 copies. The original of the book is buried with Bruno, but only one copy reached the church in a small village on the mountain in France, but he was executed by torture at the age of 42 in the Inquisition in 1526 before he could reach the other two copies.

ESMERALDA: The native Mayan girl whom Bruno met and fell in love with and brought to Spain when he arrived Mexican territory. Esmeralda is a dark-skinned and very beautiful girl. Esmeralda, who is originally from Mayan, helps Bruno find Mayan temples deep inside the forests, and resolve the Great Prophecy. Meanwhile, a great love begins between the two and after meeting him, she couldn't break up with him and eventually she leaves her family, arriving all the way to Spain with Bruno. After Bruno is executed unfortunately, Esmeralda helps Sofia in publishing and distributing the Book of Prophecy that Bruno had written.

MARIA: Bruno's mother.

PEDRO: Bruno's father.

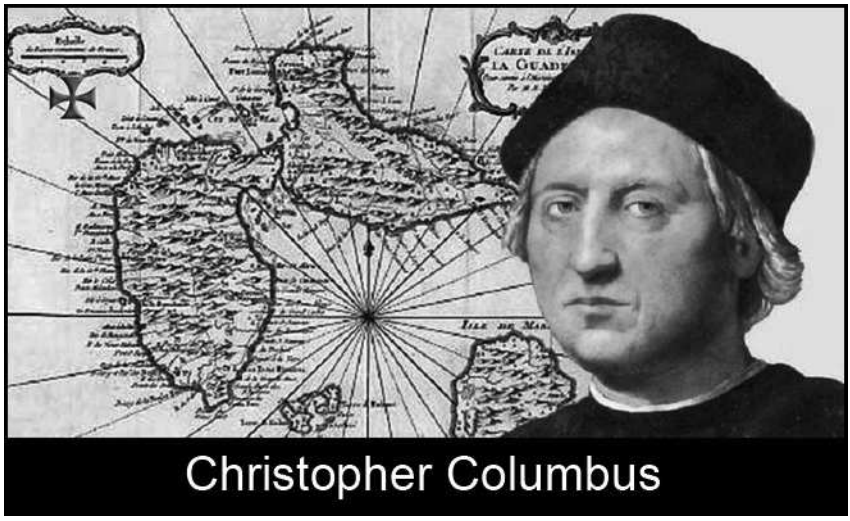

REYES: Bruno's uncle. After his mother Maria and father Pedro died, Bruno moved with his sister Sofia to his uncle Reyes's farm in Granada and lived with him until he was 20.

CAPTAIN GARCIA: The sailor who captained the Santa Maria on Bruno's cruise to Mexico to explore the Americas. Captain Garcia was once Columbus' soldier, and before meeting Bruno, he made an expedition from Spain to the coast of the island of Hispaniola

(present-day Haiti). But when his ship was stranded in shallow waters, he had to return. He had the same fate. Garcia was killed by natives on Mexican soil at the end of his cruise with Bruno.

RUIZ: Captain Garcia's aide.

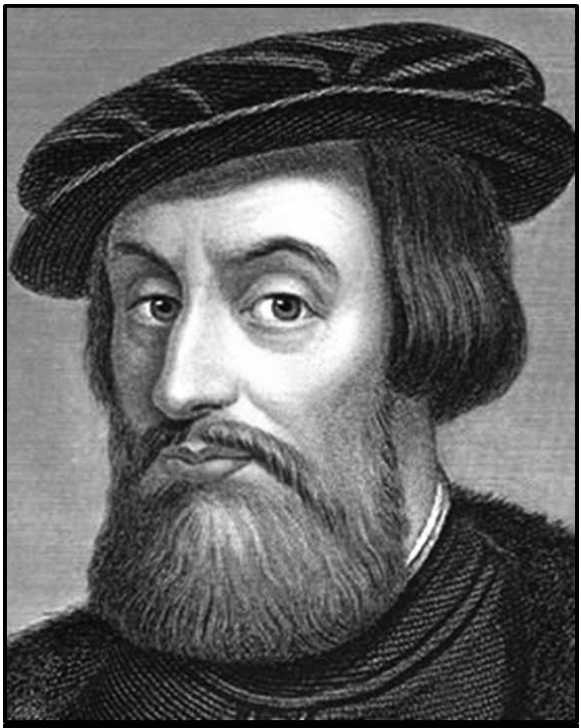

CHRISTOPHER COLUMBUS: (1450-1506) He is said to have been the first explorer to cross the Atlantic Ocean and set foot on the North American continent in 1492. He made this journey under the flag of Spanish. Before Columbus discovered the Americas, he sought help from all powerful states, including the Ottoman Empire, but no one wanted to support him. Eventually, Spain agreed to help Columbus. In fact, although Columbus was not the first explorer who reach Americas (during the 11th century, the Viking expedition led by Leif Ericson reached the Canadian Coast for the first time), his expeditions led to the beginning of the first permanent contacts, a period of conquest and colonization that would last several centuries in Americas. Therefore, he had a major impact on the historical development of the modern Western world. Columbus' primary goal had been to spread Christianity. Columbus never admitted that he

had discovered a continent unknown to Europeans as he was on expedition to the East Indies on his way out, because he thought he had reached India, not a new continent, and named the natives Indios (Spanish: Indian). This is why Native Americans are called American Indians today. In 1500, Columbus' relations with the King of Spain were strained and arrested by his colonial rulers in Hispaniola, and in the subsequent case, Columbus and his heirs claimed that the kingdom owed them. Christopher Columbus died on May 20, 1506.

ROGER BACON: (1214-1294) One of the most mysterious persons in history, the author of a very important book, which led Bruno to discover a very important secret about the Apocalypse and the

Number of Pi. Roger Bacon was one of the most important scientists, researchers, mystics and intellectuals of the Middle Ages. This Celtic scientist, who lived in the British Empire, was also on trial at the Inquisition for criticizing the Franciscan doctrine for a while and who was imprisoned for 15 years, was accused of witchcraft, was the first Medieval intellectual who defended the experimental method against dogmatic thought in the church and provided the establishment of the experimental thought system and philosophy in the world. Bacon is, in fact, the first founder of modern science today.

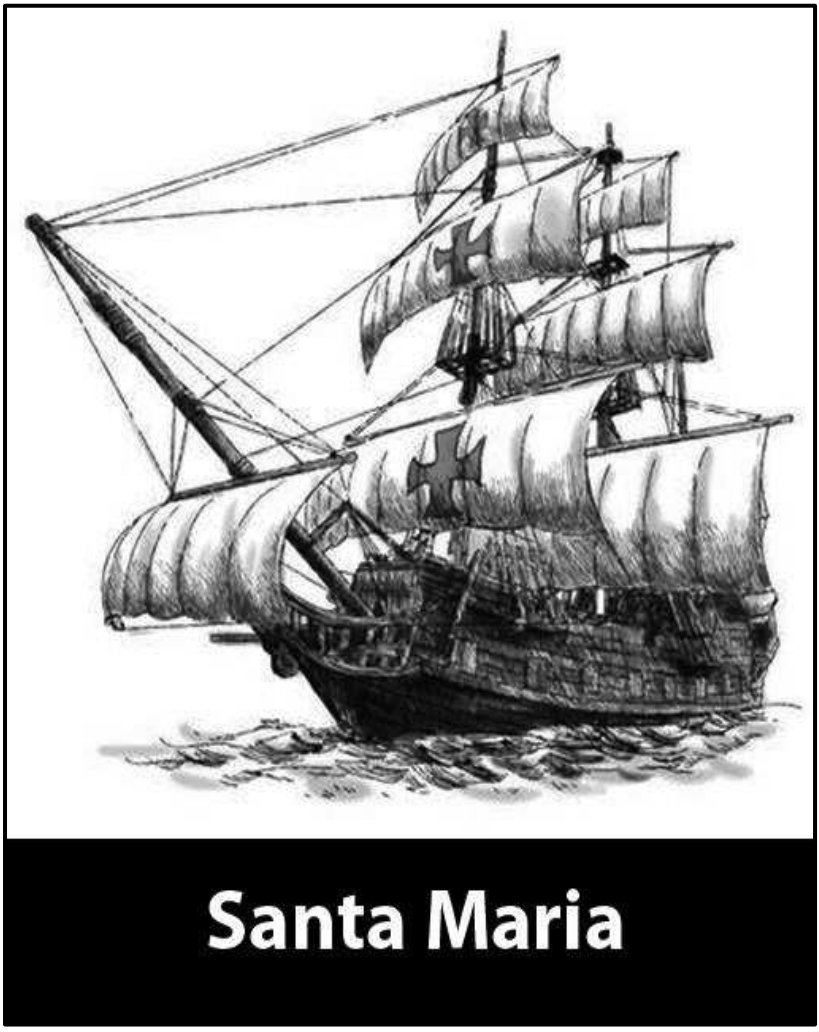

Hernándo Cortés (1485-1547)

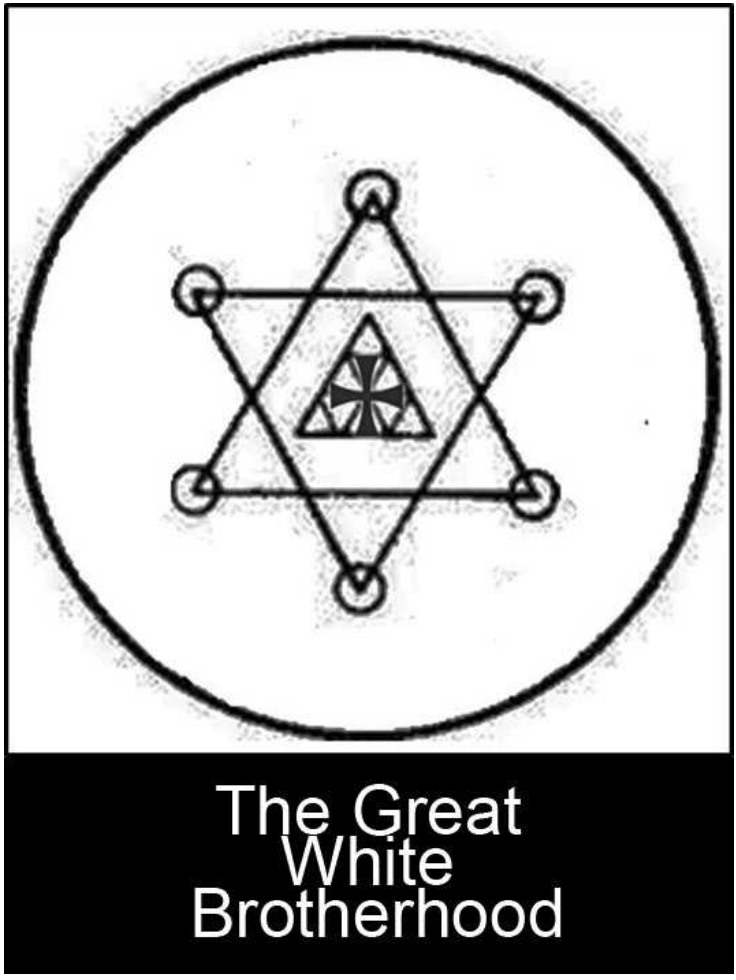

HERNANDO CORTES: (1485-1547) was a sailor who invaded Mexico on behalf of Spain and initiated the colonization of Mexico.

He is also known as Hernando or Fernando, but he signed all his letters under the name Hernán Cortés. He is a second degree cousin of Francisco Pizarro, who occupied the Inca Lands of present-day Peru. When he invaded Mexico, the natives welcomed him very well, because according to their legend; in ancient times, the white "*gods*" had come from the east on ships and had taught them civilization. Then they returned to their homes in the east, promising that they would return. Although the Indians were crooked, the "Gods" were bearded, blond-haired, white-skinned, and blue-eyed, just like Pedro de Alvarado, captain of the Cortes. The Indians taught him their God "*Quetzalcoatl*" and prostrated before him. For the same reason in Pizarro, who had invaded Peru, he won an easy victory against the Incas, a population of 10 million with a handful of men, because the name of their greatest deity, "*Viracocha*", meant "*White Man*". Perhaps the "Gods" were, in fact, Spacemen from an extraterrestrial race who had visited Earth long ago. Other evidence available in South and Central America supports this theory. Viracocha, the God of the Incas, has also left his people and disappeared into the sky, flying towards the east.

According to legends, The God of the Yucatan people "*Ququlcan*" came with 19 friends and lived in Yucatan for ten years, after leaving the laws that lead to civilization and good for his people, he flew towards the sun. As a general rule, all of the gods who founded the ancient civilizations of Central and South America came from the sky, and after a certain period of time they flew back to the places where they came from. One thing the gods had in common was that they were "white" and knew "a lot"..!

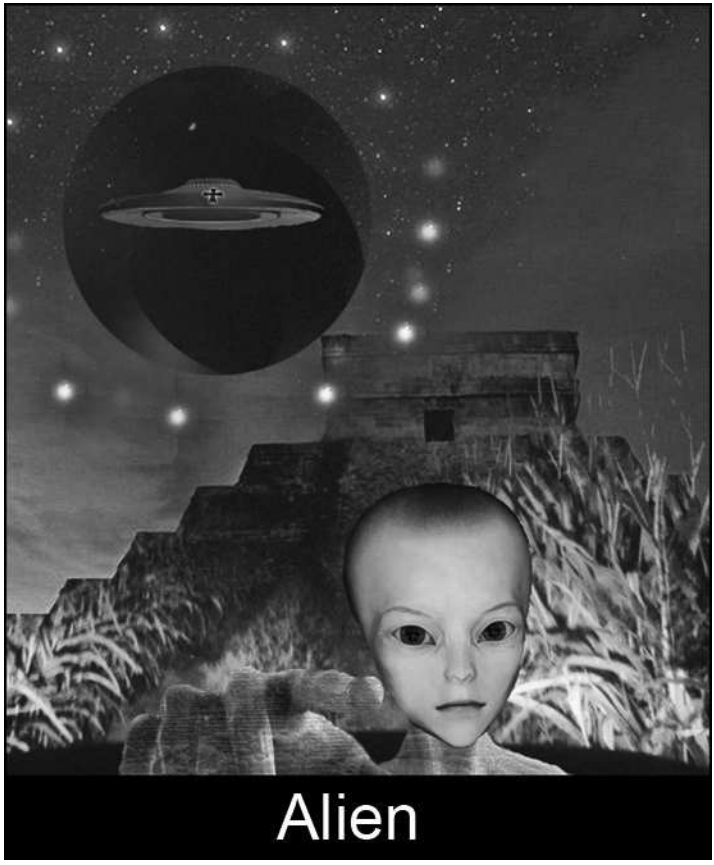

SANTA MARIA: The ship on which Bruno journeyed. Santa Maria was previously a ship of the Columbus. With this ship and a large fleet, he set out to explore a new continent but returned without success. It was a specially built ship that was uncommon in the Middle Ages and could be called the Titanic of those times for Santa Maria.

THE GREAT WHITE BROTHERHOOD: It is a secret sect that Columbus, Bacon, and the most important people in the world are the members of the world, responsible for the death of Bruno, ruling the world throughout history and thought to be constantly changing names. The Great White Brotherhood, an extremely powerful and secretive entity, is often led by specially trained masters and acts with other clandestine organizations. Many people no longer see their names being mentioned in the media, news or books, they are only superficially aware of these secret organizations that run the world,

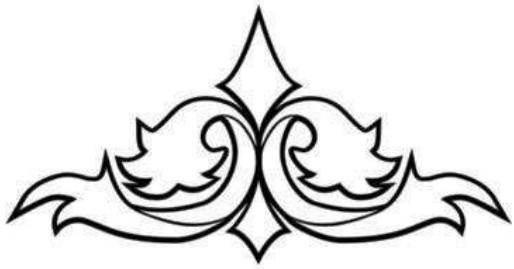

whose history is still mysteriously hidden. The secret sects associated with the Great White Brotherhood were *Freemasonry* and the *Illuminati*, the *Rosicrucians* and *Theosophy Society*, *the Knights Templar*, and finally the sect of *Sion*, and the *Jesuits* above all. In the 1,000-year dark history of the past, these are the most secretive - *unnamed* - communities that have had the greatest impact in human history. It said that there was a school called "*Scholomance*" on a secret mountain in the Himalayas on the Indian-Nepalese border, where ten students were taken every year and one person was chosen to serve Satan at the end of the education period. Education at the school was based on the mystical teaching of *King-Prophet Solomon*.

ALIEN: The extraterrestrial creature that Bruno encountered. Alien is a 1 m tall humanoid creature with gray skin and large black eyes. The UFO in which it comes, comes from Atlantis, which was once in the Atlantic Ocean and was buried underwater by a disaster. Atlantis is now under the ocean and there is a door opening from the inner world inside the Earth's crust. Warnings from Atlantis are tasked to warn a chosen supraliminal person around the world about the upcoming Apocalypse every 500 years. The mission of the Alien is to convey a very important message and warning to humanity in 1500 and he chose Bruno for it.

* * *

IMPORTANT PLACES MENTIONED IN THE BOOK

CÓRDOBA: The place where events began in the book and the city where Bruno was born and raised. Córdoba, an ancient Andalusian city in Spain, was almost the capital of Europe in science and civilization during the Middle Ages. The city, which has been home important universities since the Arab-Islam dominated Andalusian rule, has led to the development of great philosophers such as *Averroes* and *Spinoza*. In fact, it is thought that the Renaissance period that began with *Leonardo Da Vinci* originated with the influences of this Andalusian civilization.

GRANADA: An ancient Andalusian city in the south of Spain, where Bruno encountered the Alien and spent his youth alongside his uncle Reyes, where he performed his important work. Granada, located in the autonomous region of Andalusia in Spain, is famous for

its red-colored Alhambra, which dates back from the Middle Ages and the Umayyads of Andalusia. Bruno planned the great sea voyage from here to the port of Almeria in the south, where he travelled from time to time.

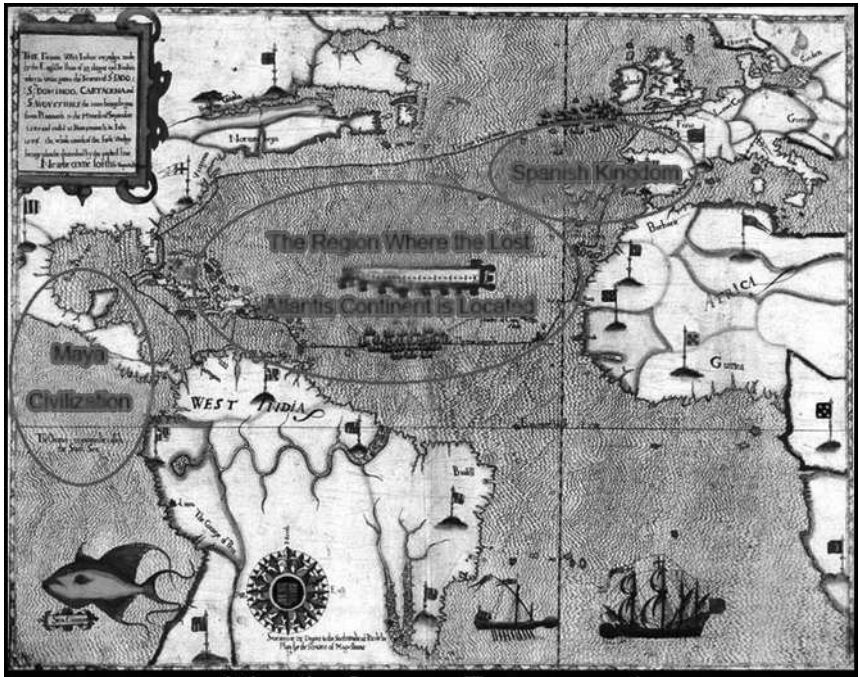

AZORES: The first port of call of Bruno's voyage. After 2 months of sailing, they stayed on this island for a while. A giant pyramid and human statue they found here gave him the idea that this archipelago was a continuation of Atlantis.

CANARY ISLANDS: The second port of call of Bruno's voyage. After leaving the Azores, they stayed on this island for a while after 2 months sailing by ship. The giant circular stone columns and the statue of Poseidon in the middle of it, that they found here, gave him the idea that this archipelago was also a continuation of Atlantis.

JAMAICA (CAYMAN) ISLAND: Bruno took refuge on this island after his ship Santa Maria was stranded and damaged. Some time before reaching the Americas, the ship's company encountered the natives here for the first time and had to fight. Jamaica's oldest known name is the *Cayman Islands*. The principal inhabitants of Jamaica are believed to be the *Arawak* people, also called Taínos. They came from South America about 2500 years ago and called the island "*Xaymaca*", meaning "*land of trees and water*". The Arawaks were intertwined with nature away from other civilizations and completely closed to the outside world. Indigenous tribes closed to the outside world, similar to the Arawaks, are known to still live in the Amazons today.

THE YUCATAN PENINSULA: The peninsula in southern Mexico that was the center of the historic very ancient Mayan civilization surrounding the Gulf of Mexico. It means "*pit of snakes*" in the Yucatan Maya language. Most of the great and important temples and pyramids of the Maya civilization are here. The Yucatan

peninsula, covered with dense forests, is where the Oracle Bruno first came ashore in America land.

Atlantic Ocean, Europe and America Continent (1500s)

CHICHEN ITZA: Located in the Yucatán Peninsula of Mexico between Merida and Cancun, Itza is a Maya city founded in the pre-Christopher Columbus period. It was probably the religious center of Yucatan for a period. The most important temple of the Mayans is Ququlcan. According to the legend, the city was taken in the 10th century by the Toltecs, led by the legendary god of the Maya, Quetzalcoatl. In recent surveys, an observatory called Caracol was found in this very old city, whose history dates back to 12-18 thousand years before the Mayans. The structure has been given this name in the sense of "snail" due to the stone spiral-shaped staircase leading up to the sky. Also, the temple of the Abbot, which is called Akab

Dzib, which means "house of mysterious writings" in the Maya language, the Temple of the Warriors and the ball game field were found here. After Bruno sets foot on the Yucatan Peninsula in the Americas, he comes to this Mayan city marked on the map to solve the prophecy, because here is the Great Temple (Ququlcan), where the Doomsday calendar is located.

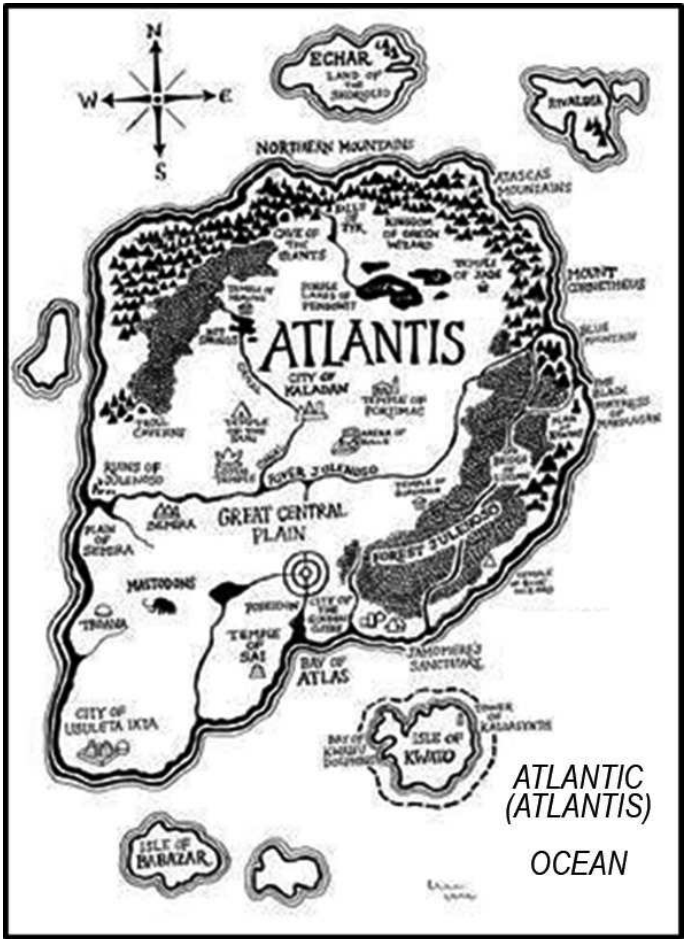

Chichen Itza City and Ququlcan Temple of the Mayans

QUQULCAN TEMPLE: The Mayans built this pyramid-shaped temple with a specific counting system, as if they wanted to reveal their knowledge of astronomy and mathematics. For example, the pyramid has four sides, each one with 91 steps, which adds 4 x 91

up to 364 steps and if we count the last platform as a step we get 365 steps, which is the number of days in the year. In addition, they have formed the pyramid in such a way that, during the autumn and spring equinoxes, the sun strikes off the corner of the pyramid and casts a series of triangular shadows, creating the illusion of a serpent 'crawling' down S-shaped on the pyramid (two-headed serpent). This snake is the feathered deity serpent, known as Ququlcan (Quetzalcoatl, the mythical god of the Mayans). One feature of the snake is that its body can take the shape of the orbits of the celestial bodies, drawing S's. They also arranged this pyramid-shaped temple in 9 different levels (similar to Dante's Inferno), such as the number of multiples of the underworld they believed in. Viewed from the top of the pyramid, it has an incredible view of a 300-hectare field, meaning that all the buildings in the city can be seen. The Mayans' great prophetic calendar is actually here, and the Oracle Bruno arrives at the Ququlcan temple here to decipher the Apocalypse. The final prophecy will be resolved here.

ATLANTIS: The mystery and secret that the Oracle Bruno really wanted to solve was the lost Atlantis civilization. Throughout his cruise to America, Bruno found traces of Atlantis everywhere he visited. Moreover, he thought that the temples he encountered in Yucatan and the Mayan prophecy calendar contained too deep information to be human art and that it was a superior building technology. The marked places on the map that the Alien gave him were the continuation of Atlantis, which was submerged. The dates of the beginning of humanity in the holy books go back to 6-7 thousand years BC. But, according to this, before humanity began, 11,000 years ago, there was a great civilization, and that civilization disappeared overnight, leaving almost no trace. Such an event would undoubtedly leave a deep mark on human memory. Survivors of disaster would remind their children of those terrible days, and they would tell their children the same way. Moreover, it was possible to see the remains

of the story of Atlantis all over the world. In some places, lost countries such as *Avalon, Asgard, Aztlan, Maya, Inca, Aztec, Egypt, Eden* appear in stories, legends, in some places the flood is directly told. But legends are not enough on their own. Scientific evidence is also needed to support them. Here, very interesting new evidence has emerged recently.

ATLANTIS

Plato, one of the greatest Greek philosophers who lived between 350-450 BC and one of the greatest philosophers in history, wrote that hot and cold water gushed from the ground in Atlantis. This event is seen in the volcanic regions as well as in the Azores where the Atlantis mountains are supposed to be flooded. Plato wrote that walls were built of red and black stones in Atlantis, yet volcanic stones of these colors are still seen along the coast of the Azores. In addition, at a time when people thought the Earth was flat and the Sea (Atlantic Ocean) was believed to flow from the end of the world into the void, 2000 years before the discovery of the Americas, Plato was openly expressing the existence of Atlantis and the Americas. Another interesting impression in Plato's books is that there are very old settlements and civilizations on the shores of the Atlantic Ocean. It is possible to see mysterious works similar to the Nazca Lines in North America and Peru. According to a recent study, the megalith (large stone) used on these shores are much older than thought and were made 10-12.000 years ago.

* * *

This book is historical science-fiction.

In 2019, it began to be written in Sirince, the famous Doomsday village near Ephesus and the House of the Virgin Mary, which was once the center of the ancient world.

The history of the world is more full of unknowns rather than the knowns. Although some of the events and places described are fiction, the existence and reality of many secret organizations such as the Great White Brotherhood, the Rose-Croix sect, and the Lost Continent of Atlantis have been discussed throughout history.

To Sofia:

" When you get this book, maybe I'll be dead. This book is dedicated to the innocent people like us who were killed in the courts of the Inquisition, and to all the innocent people who will die suffering hundreds of disasters and disasters such as war, famine, hunger and disease before the final prophecy comes in the future.

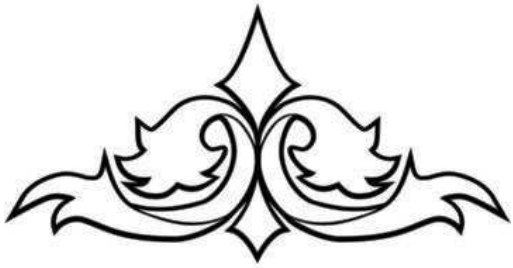

God bless all the good people in the world from evil, from war, and most of all from the evil people who have caused them pain, and from the devil who led them, who led us to the expulsion of our Father in Heaven.."

Amen

THREE MYSTERIOUS EVENTS UNEXPLAINED IN HISTORY:

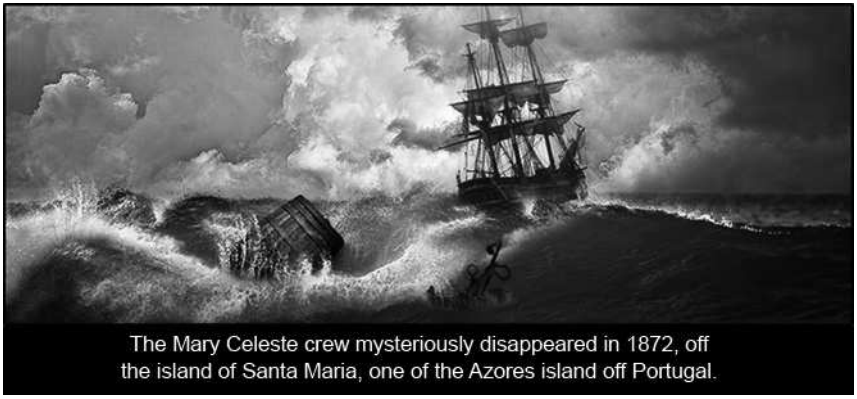

"The Lost Ship, A Mysterious Map And The Bermuda Triangle"

1-MARY CELESTE:

AN ABANDONED SHIP IN THE MIDDLE OF THE OCEAN

The story of the ship Mary Celeste begins on December 5, 1872, when a British ship, Dei Gratia, sighted a seemingly abandoned ship drifting through the Atlantic near the Azores Islands about 1,000 miles west of Portugal.

When the crew of the Dei Gratia boarded the Mary Celeste, they found everything in perfect order with even the crew's clothes neatly packed away, yet no people anywhere to be found. The only clues about the lack of people were a disassembled pump in the hold and a missing lifeboat. So began one of the most enduring mysteries of the sea.

The Mary Celeste crew mysteriously disappeared in 1872, off the island of Santa Maria, one of the Azores island off Portugal.

In this story, which is one of the most mysterious sea accidents in history, all theories have been considered, from wild stories involving sea monsters to fires caused by alcohol burden. However, there was never any clear evidence of what actually happened on the Mary Celeste.

On November 7, 1872, Captain Benjamin Briggs and the crew of the Mary Celeste, a merchant ship with a cargo of alcohol, had left New York Harbor to sail for Genoa, Italy. The captain sailed with his wife and daughter along with his seven chosen crew, but they never reached their destination. After leaving New York, Mary Celeste sailed in the ocean for two weeks. Finally, on November 25, the captain wrote his latest notes in the log.

But when the Dei Gratia found Mary Celeste on Dec. 5, there was not a person in sight. When the captain of the Dei Gratia boarded the ghost ship, he found three and a half feet of water in the bilge, the lowest point of the ship that sits below the waterline. The cargo was intact, though some of the barrels were empty. The sailors who saw Mary Celeste were suddenly stunned. Because there wasn't a single person on board. An
