wonderfull stories & make false promises.

I write from my life & business experience.

Just the facts.

To give you the best experience,

there will be a short bio of me,

so that you get to know me a little better.

Then I will tell you how & why

this book came into existence.

Then you get to read the book.

And after that, you get your surprise,

which I included to overdeliver & delight You.

The bio of author Jasmin Hajro, nice to meet you

Hello dear reader, how are you ?

Thank you for buying one of my books.

My name is Jasmin Hajro,
I was born on July 6, 1985 in Bosnia.
As refugees, we came to the Netherlands 21 years ago.
After having completed school & worked at several jobs ...

On 17 December 2012, I founded my first company:
investment firm Jasko. After a successful first year,
I unfortunately had to close that company.

After a short period of rest, unemployment and temporary work.
I started again as an entrepreneur.

On September 1, 2015, I founded establishment Hajro.

(We say establishment instead of company,
because we do a bit more then just sell stuff.
Like providing jobs,
donating to 40 different charities,
and helping people to live richer.)

Since the beginning the core activity is,
selling sets of greeting cards,
door to door.
Nowadays the product range has been expanded.

With, among other things, the selling of my 23 books.

The royalties of my books are donated to the charity:
foundation Giveth Life.
From there more than 40 other charities
receive donations.
And by buying this book, so do you.
Thank you.

My company is now part of Hajro Group,
which consists of 19 different subsidiaries,
that are part of 1 umbrella organization.
Called Energy Now (Energie Nu)

For more information about my company
& the foundation, go to www.hajrobv.nl

How this book came into existence

In 2007 I started working at a restaurant, as a dishwasher. I lived with my mother and had no living expenses. I earned about 1000,- euro per month. So I had enough money in savings. At my work I learned to work in the kitchen & worked my way up. Then I learned that my saving were not actually growing with the interest, because inflation was as high as my interest.

I did a home course called Wiser with money. Then home course Stock exchanges and investing.

I read books on finance.

Somewhere I learned that for retirement :

If you live in a foreign country for a couple of years or are an immigrant

When you retire, you will get a

pension cut.

Because you don't have a complete

employment history of 47 years.

This meant that my parents were

screwed, when they retire.

(Becaues they are immigrants,

and will only have worked in the Netherlands

for about 20 years.)

How would they survive with a half pension ?

When they're old and can't work anymore,

and when they should be enjoying life.

Then I decided to become rich.
I had to, so I can give them a decent pension.

So I went on with educating myself on finance.

Read more book on finance.
Started investing,
in mutual funds, bonds, stocks.
Made some profit & also lost some money.
No problem, I was lerning.

But I was exhausting myself,
because I also worked fulltime in the kitchen.

So I started looking for a better way,
that would cost me less time & energy.

And thru thinking about how to do it better.

I came up with a system.

When I started a company to invest

professionally for clients,

I applied for a patent.

To protect my financial system.

(It's kind out outside the intention of this book. But If you want to know what happened. My company Jasko had 1600,- euro in the portfolio. If I made a 20% return on that, I could pay the promised return to my clients, which I did, and buy a present for myself.
But it was not enough to make a living.
And then I also had no clue about selling, which is required to get new clients.
And I had to close the company.
Which hurted, because it was my baby.
But I have the experience.)

Now I have received the patent

for my invention

the financial system.

You can see it at the next page.

Well...

I gave you my bio,

so that you know me a little better.

I have told you how & why

this book came into existence.

And now is the time for you to read

the book.

Remember that I write Doing books,

which means that I describe actions that you

can take and from them get results.

Don't worry, it doesn't take a lot of your

time. And I have kept it simple.

The good news

Money keeps flowing into your life.
Money continues to flow.
Money keeps circulating.
Money has done this for hundreds of years.
Money will continue to do this for hundreds of years.

Since you first received pocket money,
since you were paid for your first job.
Since your studentloan money began to come in,
since your job started paying your monthly salary.
Since your business became profitable.

Money kept flowing into your life every month.

Even to people with social wellfare.
Thank God.
Fortunately money keeps coming in regularly.

There is enough money in the world.
Should it be necessary, than more money will be made.

the Pay Yourself First rule

It means that when you receive your money,
you first pay yourself.
For example by saving 10% of it.

To clarify the result,
we will make an example calculation.

For example, you earn 3000 dollars per month.
And you pay yourself first,
in other words: you save 10% of your income.
That is 300, - dollar per month.

A year has 12 months,
So after 1 year you have
(12 x 300) = 3600, - dollar.
After 1 year you have saved a whole month's salary.

If you save 10% every month,
how much will you have after 10 years?
(3600 x 10) = 36000 dollar.
So after 10 years you'll have 36000 dollars
or a whole year's salary in your savingsaccount.

Later on in this book,
you'll see how to make that money that you save every month.
Grow faster.

10% of everything

It is important that when you first pay yourself,
by saving 10%.
That you save 10% of everything.

Of course 10% of your income.

But also 10% of the tip if you get it,
also 10% of your allowances,
also 10% of your gift money,
also 10% of your 13th month,
also 10% of your bonus,
also 10% of your wage increase,
also 10% of your tax refund,
also 10% of your welcome premium.

From which angle or from whom you receive money,

the first thing you do is pay yourself first.

By saving 10% of it.

the secret of success

The secret of success is Persistence.

If it takes 20 years,
for you to become a millionaire.
If that means that it requires of you
20 years,
of working and saving & investing.
Then you have to Persist 20 years with
working and saving & investing.

And not quitting after 5 years ....

PERSIST until you reach your goal.

The 2nd secret of success is:

WHAT YOU DO WITH YOUR TIME

So do not go watch TV for hours,

but start earning money

&

deal with people who earn a lot of money.

So that you learn from them to earn even more money.

That money will start to work hard for you,

according to this system,

that you are learning.

The person who will make you rich,

the one who will build your Fortune,

is YOU.

Therefore, take good care of yourself.

So you can keep on persisting

for a long time,

until you reach your goal.

Trend

Because people live longer nowadays,
they need money for a longer period of time.

Many people build up income for later,
with dividend paying &
interest-bearing investments.

This will increase the value of those kind
of investments,
over time.

The part of your money
that you are going to invest,
will grow because of this trend.

Bonds explained

If you buy a bond,
you actually lend money to a company or government.
You get interest for this,
which is paid to you annually.

A bond usually costs around a thousand dollar.
Some bonds have a certain duration,
for example 10 years.
If this bond gives 5% interest,
with a duration time of 10 years.
And you buy this bond.

Then you get the upcoming 10 years,
50 dollar in interest each year.
After that 10 years, you get your deposit,
that thousand dollar back.

Some bonds have no duration in years mentioned.
There is a P mentioned, the abbreviation for Perpetual,
which means eternal.
These perpetual bonds pay interest annually,
for eternity.
As long as the organization that issues them still exists.
That can be hundreds of years.

You buy a bond once,
and get 50 dollar in interest each year,
for the next 50 years or longer.
Without having to do anything else for it!

That's better, is it not?
