LEAVES THAT FILTER THE SUNLIGHT THE DENSE RAINFOREST

It's very exciting when your chicks fly out! Apart from the empty nest, it can also be extra difficult when communication is poor.

This report is also a picture of the times. In this book, I mainly let my daughter Puck speak. It has become a long monologue. In the days that Puck was hiding in the bush, contact was sometimes broken for weeks.

Twin sister Mathilde left for her internship in New Zealand in the same period.

*Quote from dr. Jane GOODALL: "Look at us now, the smartest strain
that ever existed. How can we destroy the only planet we have?"*
