# Preface

As I step into this digital journey through the captivating world of NFTs, I feel called to reflect on the love and support that have carried me every step of the way. This book is more than a guide, it is a tribute to those who walk beside me in life.

To my wife, Fatija, you are the soul of everything I do. Your unwavering support, deep intuition, and boundless care have been the anchor of my journey. Through every challenge and triumph, your presence is my strength and your love, my guiding light. Nothing would exist without you.

To my sons, Imran and Liam, your energy, curiosity, and unfiltered joy remind me every day why we dare to dream. You are the fire of my imagination and the reason I believe in futures yet to be written. Through your eyes, the world feels limitless.

Along the way, I've also been fortunate to receive insight, kindness, and encouragement from many others, friends, family, and mentors who offered their presence at the right time. I am grateful to each of you, including Mr. Y. Joos, Mr. Schobbens, the brothers Stas, Mr. Engelen, and Mrs. van Gastel. Though your roles vary, your imprint on this journey remains.

To my friends and acquaintances, thank you for your patience, your understanding, and for not minding my busy life while I immersed myself in writing. Your quiet support meant more than words can express.

As I now turn the page and invite you to explore '**eNoughF Tea?**', I do so with deep gratitude. This book is not written alone, it is steeped in connection, and brewed with love.

With love and gratitude,
Rouben Vansteenkiste
